WORK EXPERIENCE

MERN stack Intern

S.M.I.T (Saylani Mass IT Training)

01/2025 - Present

Karachi - Pakistan

Achievements/Tasks

- **Built and deployed full-stack CRUD applications** using React, Node.js, and MongoDB, enabling user authentication and dynamic content updates
- **Integrated RESTful APIs** for real-time data handling, improving backend efficiency and frontend responsiveness
- **Collaborated in Agile sprints** to debug, optimize UI/UX, and deliver feature-rich modules within tight deadlines

Home Tutor

Teacher of 9th class

01/2024 - Present

Karachi Pakistan

Achievements/Tasks

- **Tutored students in Math and Science** from grades 6 to 10, resulting in noticeable improvement in academic performance and confidence
- **Developed personalized lesson plans** based on individual learning styles, boosting engagement and retention
- **Conducted regular assessments and progress reviews**, helping students stay on track and excel in school exams

Logo Designer

Freelancing

02/2023 - 12/2024

Achievements/Tasks

- Ensured 100% client satisfaction
- Delivered brand-focused designs
- Created custom and business logos

PERSONAL PROJECTS

Event Management Platform

- A well-built event management platform created during a hackathon in just a few hours — clearly showcasing my productivity and expertise. Demo: [\[Event Management Platform\]](#)

Student Registration with Admin panel

- A production-ready Loan Management System with full authentication and complete CRUD operations, designed to efficiently manage loans and user data. Demo: [\[student registration\]](#)

Social Memory ShareApp

- Developed a social media application using Supabase for backend logic and authentication. Implemented features including post sharing, a gallery page, and user authentication. Ensured a responsive design for optimal viewing across various devices. Demo: [\[social-memory-share-remindex-alpha team\]](#)
